MISS BLANCHARD HOME

RETURNS FROM EUROPE WITH
MANY INTERESTING EXPERI-
ENCES TO RELATE

Miss Irene Blanchard, 405 West Ninth street, has just returned from Europe, where she has been for the past eight months, having spent most of her time in Denmark, where she visited relatives. Miss Blanchard has had many exceedingly interesting experiences, and, coming in close contact as she has with war conditions which are far removed from most of us, her trip has been a most extraordinary one in every way. She made the voyage over in the Frederick VIII, a Scandinavian-American boat and the one chosen by the U. S. government to return the German ambassador, Count Bernstorff, and his party. Because of this circumstance, passage was delayed at Halifax for twelve days while the passengers and ship were being thoroughly searched. As they spent a month on the Atlantic, all on board became well acquainted despite the fact that a large proportion of the passengers were returning to their own country under such painful circumstances. Miss Blanchard's home and native surroundings appeared to be of great interest to the company, and she was much questioned concerning her life here and was nicknamed "Miss California" by all on board. She even had the unusual experience of being toasted in champagne by Count Bernstorff himself, who proposed a toast to "Miss California" at the captain's dinner. Captain Thompson, as it happened, was an intimate friend of Miss Blanchard's uncle, Mr. Christopher H. Hennevig, with whom and her aunt and cousin, Mrs. Hennevig and Miss Effie, she was making the trip. Her aunt and uncle had been visitors in Glendale shortly before the party left for Europe. She had hoped to make an extended visit with her grandfather and grandmother in Denmark, but her grandmother's sudden death, three weeks after their arrival, changed her plans, and, together with the rather uncomfortable conditions of living there at the present time, made her glad to be able to get back to California.

Her grandfather, Henry Hoffman, is a man of some distinction in Denmark, having been knighted by the late King Frederick VII on the occasion of the fortieth anniversary of his service for the government, which was celebrated by a holiday declared by the King. He is now general manager of the car shops which are owned by the government in Denmark. But, even though her family were people of some wealth and position, she found them deprived of a great many of what we now think of as the commonest necessities of life. No one has electric lights and very little gas can be burned. Coal is impossible to get. Kerosene can only be bought by presenting a doctor's certificate stating that sickness demands its use at night. Candles, and very inferior ones at that, furnish practically all the lights. Automobiles are not in

(Continued on Page 2)

HOME NURSING CLASS FORMED

An enthusiastic number of ladies met last night at Red Cross headquarters to form the first home nursing class that has been formed under this chapter. Mrs. Hutchinson, who has charge of this work in this chapter, has been working for some time to secure a large class that the expense might be made small for each person. The government demands that the number enrolled must be ten or more. The instruction is to be given by Mrs. Eva Tufts, a registered Red Cross nurse. Mrs. Tufts is not new to Red Cross workers in this city, having given so faithfully of her time in the surgical dressing work. Sixteen have expressed a desire for this course and signed the roll. The following officers were elected to serve throughout the course of fifteen lessons: President, Miss Grace Beach, 333 North Brand boulevard; secretary, Miss Augusta Otto, 1500 Riverside drive. The register will remain open for a few days that several who could not be present may have the opportunity to register.

They may register with the officers or Mrs. Hutchinson, at 200 Orange, or Miss Evelyn Kent, 431 Brand boulevard. This must be done in two days, then the roll will be sent to Washington and we will receive permission to begin work. Fifty cents must accompany each name, which pays for certificate and examination fee. The course is equal to one year's training in a hospital and permits one to become a nurse's aid in a base hospital.

WEATHER FORECAST—Fair tonight; northerly winds.

GLENDAL LIBRARY

INVITES SCHOOLS AND ALL OR-
GANIZATIONS TO USE REF-
ERENCE DEPARTMENT

The Glendale Library extends a hearty invitation to every organization, particularly the schools, Tuesday Afternoon Club and Parent-Teachers' associations, to come to the library for reference work or any form of service which an institution of this kind can render. The Glendale Library has the backing of the Los Angeles Library for reference books not practical for a library of this size.

The bibliographies issues last year constituted one of the most valuable features instituted in the library work. By request of any organization or a sufficient number of people interested in some particular subject, such bibliographies will be compiled by Mrs. Danford and her staff.

The Glendale Library is co-operating with the American Library Association in a movement recently originated by the United States Department of Education. The department requested that the libraries of this country and Canada raise a \$1,000,000 fund to establish suitable libraries at all the permanent training stations. The library association endorsed the idea, and has made scientific plans for raising the fund according to the population of the cities. The libraries responded almost unanimously. The Glendale Library Board is acting as a committee of the whole in this matter. Any who wish to make personal contributions to this fund may do so at the library and the fund will be duly forwarded to its proper destination.

WILL VISIT LIEBRE MOUNTAIN

On Saturday and Sunday there will be a local excursion of the Southern California section of the Sierra Club to Liebre mountain. Mr. Benjamin W. Fenton of Pasadena will be the leader of the trip. Those going from Glendale are: Miss Cora Louise Butterfield, Miss Eulalia Richardson and Mr. Paul Richardson. The trip starts at noon on Saturday, a special auto taking the members from Sixth and Los Angeles streets, Los Angeles. The drive will be via Newhall, Bouquet canyon, Elizabeth lake and Pine canyon to Oak Ridge ranch. Mr. Walter Collins, owner of the ranch, has invited the club to camp at his beautiful place and has extended an invitation for the members to pick all the fruit and melons that can be used. Sunday they will walk by way of the scenic route trail to Liebre mountain, which has an elevation of 5791 feet. This is a beautiful pine country with fine views of Antelope valley, the Tehachapi mountains and the ridge country. The walk will continue to Sandberg's, where autos will meet the party at 2 o'clock for the return trip to Los Angeles.

DR. STONE RECEIVES COMMISSION

Dr. Fay G. Stone of Glendale is now an army officer in the service of the United States, having received his commission from President Wilson this morning. The commission makes Dr. Stone first lieutenant in the dental section of the officers' reserve corps. At the beginning of the war Dr. Stone offered his services in this capacity, having passed the examination, and on receipt of his commission took the oath of office this morning. He is now subject to call at any time and is expecting to receive his summons within a month. He is anxious to get into active service and hopes to be sent to France at once. He will remain in his Glendale office until he is called.

ATTEND RECIPROCITY LUNCHEON

Mrs. W. W. Ramsay, as representative of the Tuesday Afternoon Club, and Mrs. W. H. Bullis, from the Tropico Thursday Afternoon Club, were present at the Reciprocity Day luncheon and entertainment given on Tuesday by the Woman's Club of San Pedro. A special car took the representatives from the clubs of the district out from Los Angeles and was met by a committee of ladies from the San Pedro club, who conducted the party to the clubhouse. There was a large attendance. Mrs. Willoughby Rodman spoke on "Food Conservation," and the other speaker of the afternoon was Mr. Lindbrow, who talked on the new issue of Liberty bonds. Mrs. Ray Pearson, a local singer, gave several songs during the afternoon. The band from the Coast Artillery stationed at Point Firman furnished music out on the piazza and was entertained at lunch by the ladies.

COMMITTEE ASKS LaFOLLETTE'S EXPULSION

MEN WHO WORKED FOR AND HELPED PAY FOR WISCONSIN SENATOR'S ELECTION WANT HIM IMPEACHED

(Special Service to Glendale Evening News)
MILWAUKEE, October 3.—Men who worked for and helped pay for LaFollette's election to the United States Senate last November are demanding his impeachment and expulsion from the Senate this afternoon. Every active member of the executive committee of the Republican State Central committee concurred in a telegram sent to the Senate urging the expulsion of the Wisconsin Senator.

MEN MAY TRAIN FOR OFFICERS

THIRD SET OF TRAINING CAMPS WILL PERMIT CERTAIN MEN TO PREPARE THEMSELVES FOR OFFICERS

(Special Service to Glendale Evening News)
WASHINGTON, October 3.—A third set of training camps, January 5 to April 5, will permit members of the regular army, the National Guard and the National Army, along with graduates of certain colleges and military schools to train for officers' positions, the war department announced today.

RUSSIANS VOTE AGAINST COALITION

CONVENTION REVERSES ITS FORMER ACTION TODAY IN DECISIVE BLOW AT KERENSKY

(Special Service to Glendale Evening News)
PETROGRAD, October 3.—The Russian convention, in the reconsideration of the coalition question, reversed itself today when it voted, 113 to 180, against coalition. This decisive blow was aimed directly at Kerensky and the provisional government. Today's action reversing the first vote for coalition is inexplicable unless the anti-Kerensky forces won control of proceedings when the majority element was absent.

POSTPONE FREIGHT RATE INCREASE

INTERSTATE COMMERCE COMMISSION POSTPONES ACTION INDEFINITELY IN TRANSCONTINENTAL SHIPPING

(Special Service to Glendale Evening News)
WASHINGTON, October 3.—The Interstate Commerce Commission postponed indefinitely operations of transcontinental freight rate increase from Eastern points to Pacific coast terminals on iron, steel products, canned goods, cotton, glass, lumber and cloth.

DESTRUCTIVE TYPHOON STRIKES TOKIO

EIGHTY ARE DEAD AND PROPERTY LOSS RUNS INTO MILLIONS AS RESULT OF STORM IN JAPAN

(Special Service to Glendale Evening News)
TOKIO, October 3.—Thousands of buildings were destroyed, 40,000 are homeless, at least 80 are dead and \$3,000,000 damage was done as a result of the most destructive typhoon and flood in the city of Tokio in the past 20 years. Railroads and shipping are completely paralyzed.

AMERICAN DESTROYER IN COLLISION

STRUCK BY BRITISH NAVAL VESSEL IN DOWNPOUR OF RAIN—NO ONE INJURED

(Special Service to Glendale Evening News)
WASHINGTON, October 3.—An American destroyer, operating in European waters, was damaged in a night collision with a British naval vessel, the Navy Department announced today. No one was injured. The accident was due to the invisibility of the destroyer in a heavy downpour of rain.

FRENCH AVIATORS ATTACK BADEN

(Special Service to Glendale Evening News)
PARIS, October 3.—Baden, Germany, was bombed by French aviators, official statements announced today.

CONGRESS TO ADJOURN SOON

(Special Service to Glendale Evening News)
WASHINGTON, October 3.—The adjournment of Congress before October 10 appears certain this morning.

NEW LOAN TO BELGIUM

(Special Service to Glendale Evening News)
WASHINGTON, October 3.—A loan of \$2,000,000 to Belgium was announced by the Treasury Department this morning. This makes a total of \$55,000,000 this country has advanced to Belgium.

PIE DAY FOR THE BOYS

TOMORROW IS THE DATE SET FOR FEEDING BOYS OF THE COAST ARTILLERY

Considerable publicity has been given to the "Pie Day" propaganda under the direction of Dr. Henry R. Harrower. Already when this issue of the News reaches you, scores of pies are made or are in the making, for tomorrow (Thursday) morning there will be a regular pie shower at the Chamber of Commerce.

If, perchance, the reader does not quite understand, we will explain once more in the hope of stimulating pie production just a little more.

At the suggestion of Mrs. Nanno Woods, Glendallians had a "Candy Day" for the Glendale company of soldiers camped on Dead Man's island. It was planned to have a "Pie Day" and a "Cake Day." The first is tomorrow and the next in two weeks.

We need 115 pies! Preferably "the kind that mother makes," and it is requested that the donations be delivered to the Chamber of Commerce before 9:30 Thursday morning. Please place paper pie plates above and below, and if there is a chance of juice leakage put two or three layers of paraffine paper around them.

Interested ladies who care to help pack the pies for shipment should be at 1009 West Broadway tomorrow morning at 9 o'clock.

Think of the gastronomic excitement at Dead Man's island tomorrow afternoon!

JOHN T. WILSON MAKES REPLY

San Fernando, Cal., Oct. 2, 1917. Glendale Chamber of Commerce, Glendale, Cal.

Dear Sir—Your favor of September 28, 1917, in regard to removal of exemption board headquarters to your city, I would say that the same would be entirely agreeable to me. I do not know the legal steps necessary to make the move, as I find nothing in the exemption regulation directing us in the matter. However, I know that there has been some applications for changes, but what the outcome of same has been I do not know. I would suggest that you take the matter up with Mr. D. B. Lyons, registrar of voters of Los Angeles county, who is posted in such matters and can furnish you with the information or secure the same for you.

And I would say further, that while you have the matter under consideration it would be well for you to select some person that would be satisfactory to your board to be appointed in my place on the exemption board, as in case the headquarters should be moved to Glendale it would be impossible for me to give the position the time and attention it requires.

Trusting this will meet with your Chamber's approval, I remain,

Very truly yours,

JOHN T. WILSON.

G. A. R. CONDEMNS OPPOSITION TO WAR

At the last meeting of N. P. Banks Post, G. A. R., the chaplain, Rev. C. R. Norton, presented a resolution which was unanimously adopted by the post and concurred in by the Woman's Relief Corps, to the effect that strong condemnation should be placed on all opposition to the prosecution of the present world war on the part of the allies. The methods employed by Germany were also strongly condemned, as well as all persons giving sympathy or comfort to the enemies of the United States in this war for democracy.

To consider this matter a meeting was called for Sunday afternoon at 3 o'clock at the G. A. R. hall, in which the people of the entire community are requested to co-operate by their presence. The meeting will be addressed by Comrade Clark, Attorney Dwight Stephenson and others. Special music will be provided.

TO REPORT THURSDAY

The following named men of the Seventh exemption district have been ordered to report at San Fernando headquarters for military duty and for transportation to mobilization camp, Thursday, October 4, at 10 a. m.:

Arthur H. Moore.
Herbert B. Baiz.
J. Goodrich Gould.
Howard H. Harding.
Frederick Eugene Burt.
Albert S. Garcia.
Albert Getten.
Richard Guy Hood.
Earl Raymond Thornton.

MUNICIPAL CONVENTION

CITY MANAGER WATSON REPORTS MEETING HELD AT SANTA ROSA

(By T. W. Watson)
The city of Glendale was represented at the twentieth annual convention of the League of California Municipalities by Health Officer Dr. R. E. Chase, City Engineer Ed M. Lynch, Manager Public Service Department H. B. Lynch and City Manager T. W. Watson.

The convention was held at Santa Rosa, September 24 to 29. Two hundred and five (205) cities of the state are members of the league. The object of the league is to promote a spirit of co-operation between the cities of the state and, by the exchange of views upon various phases of city government afforded the delegates to its convention, to facilitate all plans for better and more efficient municipal government throughout the state.

The city of Santa Rosa is the county seat of Sonoma county. Its population is approximately 13,000. The city is situated near the center of the Sonoma valley. This valley is about the size of San Fernando valley, the chief products of which are grapes, hops, prunes, tomatoes, apples, walnuts, poultry, etc. Considerable hay and grain are raised and numerous dairies are located throughout the valley. Santa Rosa is a prosperous town, being the commercial center of this large and productive district. The business center of the town was practically all destroyed during the San Francisco earthquake. One hundred and six (106) of the inhabitants of the city lost their lives by this awful catastrophe. The business portion of the city has been rebuilt since that time with substantial modern business buildings, quite in contrast with the resident section of the city, which is composed of buildings of the older style.

Sonoma county courthouse, a beautiful building of classic design, costing approximately \$700,000, occupies the middle section of a city block in the center of the town, opposite which on the east is located the City Hall, a small but substantial building of the same design. To the west of the courthouse square, facing east, are two beautiful bank buildings of the same design. This open square, with the present beautiful buildings of a uniform classic design, is a nucleus for a civic center of which any city of the size of Santa Rosa might well be proud.

Those of us who live in the southern portion of the state need to visit the northern sections of the state once in a while in order to realize that beautiful, sunny California is not all confined to that portion of the state south of the Tehachapi mountains. The Sonoma valley as we saw it last week would fit anywhere in Southern California as a natural part of this district, both as to climate and products of the soil, excepting, perhaps, the citrus products, although some oranges are raised in that section.

All sections of the state were represented at the convention, and the delegates seemed as eager to assist in the solving of the other fellow's problem as they were to obtain assistance in the solving of their own.

One of the greatest benefits to be derived from association with representatives of other cities comes from

(Continued on Page 2)

ATTEND RETIRED MINISTERS' MEETING

Rev. and Mrs. C. R. Norton and Rev. W. S. Blackburn and daughter, Miss Mary Blackburn, attended the meeting of the Retired Methodist Ministers' Association, which was held at Bixby Park, Long Beach, Tuesday afternoon. Fifty-five members were in attendance and a most delightful day was experienced. Seven new members were added to the roll, making the total number 254. Any retired minister of the Methodist Episcopal church is eligible for membership in this organization. The next meeting will be held in the Los Angeles First Methodist church January 8. Rev. Norton is serving his fourth year as secretary of this unique organization.

AND STILL THEY COME

Dr. and Mrs. Kinsley, of 318 South Louise, have been entertaining Mr. J. J. Travis of Delta, Colo., for the past week. Mr. Travis, who is an old acquaintance, returned yesterday to Colorado, expecting to become a resident of Glendale in the very near future. He has visited California many times in the past two years, and says this city is the best of them all, and expects to make it his home and place of business in the future.

GLENDALE, CALIFORNIA, WEDNESDAY, OCTOBER 3, 1917.

THE UNTRAINED

By Dr. Frank Crane

I have just graduated from the High School. I am supposed to be educated. The City has provided me for some years with skilled teachers and expensive apparatus of all kinds. I will tell you a few things I don't know.

I know some irregular French verbs; but if I were lost in the streets of Paris I couldn't ask my way home.

I can say amo, amas, amat, also en to okio ton anthropon horo, but I cannot keep the ledger at my father's store nor send out his monthly statements.

I am half-back on our team and know the quirks of passing the ball; but I don't know how to build a woodshed or shingle a roof.

I can extract the square root of 9,273,642; but I don't know how to extract the milk from our cow.

I know how to parse a sentence from Macaulay's Essays; but I don't know how to light a match in the wind or how to chop down a tree.

I have studied Political Economy until my head is full of raw theories and long words; but I don't know the name of the alderman from our ward nor the congressman from our district.

I can prove that the square of the hypotenuse is equal to the sum of the squares of the base and perpendicular; but I don't know how to hang wall-paper, put in a pane of glass or paint a buggy.

I have taken fifty lessons in chemistry; but I don't know enough to keep alcohol out of my system, I know nothing of food values and gorge myself on what pleases my palate.

I received eighty-five per cent. in English Literature; but I couldn't get fifteen dollars a week writing news for a newspaper, I can't write a readable letter, and my average conversation is about on a level with the sporting page.

I don't know who our mayor is and nothing of our city government; but I know the names and have the pictures of all the prominent actresses, prize-fighters and base-ball stars.

I can order drinks at the Country Club; but I can't churn a good mess of butter, I don't know when to plant beans, I have no idea what kind of soil is good for corn, I can't tell a slippery elm from a hickory tree, I don't know the names of the grasses, mosses, ferns and flowers in the woods I tramp over, I can't fry fish nor make coffee nor biscuit, and I don't know the names of the stars I see every night in the sky.

Nobody has made me understand how to control my appetites, nor the laws and dangers of sex feeling, nor the need of discipline, nor the art of engaging conversation, nor the true nature of happiness.

I was educated according to the ancient formulas for producing a scholar and a gentleman, and I find I have to work for a living. I have no taste nor love for hard work, no habits of saving, no disposition to resist temptation, and no skill in doing anything the world is willing to pay for. I am wholly untrained for efficiency; and before I make good I will have to undo most that has been done to me in school.

PATRIOTISM

By Sir Walter Scott

Breathes there the man with soul so dead
Who never to himself hath said,
This is my own, my native land!
Whose heart hath ne'er within him burned,
As home his footsteps he hath turned
From wandering on a foreign strand?
If such there breathe, go, mark him well;
For him no minstrel raptures swell;
High though his titles, proud his name,
Boundless his wealth as wish can claim,
Despite those titles, power, and pelf,
The wretch, concentered all in self,
Living, shall forfeit fair renown,
And, doubly dying, shall go down
To the vile dust from whence he sprung,
Unwept, unhonored and unsung.

NO PEACE ON ROTTEN FOUNDATIONS

The Mad Hatter of 1904 has grown madder with each succeeding year of his boasted partnership with a god made after his own image. The documents the Herald makes public, says the London Times, convict the Kaiser of endeavoring to build up a great coalition against Great Britain while pretending to be a friend, and of being base enough to suppose that Britain's real friend, France, then actually debating the ratification of the Entente, would stoop to be an accomplice in his perfidy. "What," asks the Times, "is to be thought of the character of a man capable of such perfidies? Who can trust his honor or good faith? And yet it is on these rotten, shattered foundations that peace fanatics would have us build the future safety of the world!"

President Wilson saw, and the American people see, the rotten-

MISS BLANCHARD HOME

(Continued from Page 1)

use because gasoline cannot be obtained. All traffic is carried on by teams and bicycles. Everyone rides bicycles. The streets are full of them.

As for food, the prices for what we consider the simplest food is prohibitive. White bread costs what would be about 50 cents a loaf in our money, though the poor people eat a black bread which sells for about 35 cents, though it can be baked somewhat cheaper at home. White flour is so expensive that there is no economy in home baking. Potatoes were not even in the market earlier in the season, but since the harvesting of crops they can be bought for 2½ kronin per pound, or about \$1 in our money. Pork and mutton are the only ordinary meats to be obtained at any price, and are so high that only the rich can afford them, even sparingly. However, horseflesh is sold in all the markets at lower prices, and is the only meat within the reach of the common people. Staple foods are sold only through government tickets, and without tickets none can be had. Every three months these tickets are issued and must be presented when making purchases. Each person is allowed only a certain amount—in the case of sugar, for instance, each member of the family is allowed one pound a week. Sugar tickets are especially cherished, many families going almost entirely without for many weeks before the canning season in order to save up enough to be able to can their fruits. With these and many more deprivations which are being suffered there during the summer, and the unfortunate fact that crops have been unusually poor owing to long drought early in the season and a later period of cold rains, and the almost complete absence of fuel, the conditions the people there are facing for the coming winter are very serious. Miss Blanchard is glad that she was able to return at the time she did, as war conditions have almost stopped the crossing of even the Scandinavian boats. Her return voyage, on the Hellig Olav, was made in thirteen days without special event, no submarines being even sighted.

SANTA ROSA CONVENTION

(Continued from page 1)

the realization that all cities have their problems, and by getting a view of the problems presenting themselves to other cities our own seem smaller.

The general plan of the convention called for departmental meetings in the morning. The councilmen, city engineers and street superintendents met in one section, the city attorneys in another, city clerks and auditors in another. Health officers, milk inspectors and city planners met in their respective departments. In the afternoon all departments met together for general discussion. The evenings were devoted to entertainments furnished by the people of Santa Rosa.

The convention seemed to be a matter of business to all the delegates in attendance. The departmental discussion seemed to be of special interest. Specific plans affecting cities were discussed in considerable detail, and opportunity given for questions and answers.

One of the most interesting papers read before the department of clerks and auditors was by S. D. Schribner, city clerk of Napa, on the subject of accounting in sixth class cities. The papers read before the clerks and auditors and the discussion on the subject of city accounting and simplifying of records was very helpful to all the delegates present. It seemed to be the consensus of opinion of this department that a uniform accounting system for all the cities of the state should be perfected, and that all cities should be required to conform to such a system, so that comparative cost of city government might be presented by the State Controller in his annual report.

A very interesting talk was given to the engineers by D. W. Cozard, street commissioner of Santa Rosa. Mr. Cozard said that Santa Rosa had established its own asphalt plant and was constructing pavement consisting of a five-inch concrete base with a 2½-inch Topeka or asphalt wearing surface for 12 cents per square foot. A very helpful paper was also read in that section by D. W. Perry, city councilman of San Anselmo. Mr. Perry brought out very clearly in his paper that the most substantial pavements, though costing a little more for first installation, are cheaper in the long run, if such pavements are to be subject to very heavy traffic. A representative of the engineering department of the state highway commission read a very helpful paper on state highway construction, setting forth the value of a permanent concrete base as compared to the macadam type of paving, maintaining that experience has fully justified the state in adopting a concrete base as a standard for the state highway.

It seemed as though every phase of city government was very thoroughly discussed at the convention, and time or space would not permit of detailed presentation of the entire proceedings here. I will say, however, that it is the intention of the league to have these proceedings printed in book form and the city of Glendale will have copies of this booklet placed in our library so that interested citizens may read these reports in full.

Southern California was doubly honored by the election of Loran A. Handley, president of the Board of Public Works of Los Angeles, to the presidency of the league for the ensuing year and by the selection of the city of Riverside as the convention city for 1919.

MISS SAXE TONIGHT

First M. E. church this evening at 7:45. Union meeting for everybody. Miss Grace Saxe, of the Sunday party, will give another of her popular Bible lectures. The address this evening will be of special interest to all young people. The subject will be, "Lessons from the Ancient Tabernacle," an interesting model of which will be shown.

Only two more lectures in the course after tonight. All are most cordially invited to hear this peer of Bible teachers.

SPIRITUAL CHURCH

The Harmonial Spiritual church of Glendale will meet each Thursday evening at 8 o'clock at the home of Mrs. E. Z. Barnett, 502 West Ninth street. Everybody welcome. Mrs. B. L. Cline, secretary. tf-Wed

CLEARANCE SALE

Having on hand a number of 1917 city directories of Glendale, Tropic and Casa Verdugo, which we wish to close out immediately, the price at which these well-bound books, including a map of Glendale, has been fixed is 50 cents per copy.

GLENDALE EVENING NEWS.

Mr. Lloyd George seems to have been getting his American history out of our school text books.

Personals

The Monday Bridge Club was entertained this week by Mrs. J. Herbert Smith at her home, 114 South Brand boulevard.

Mr. and Mrs. Telser and baby are visiting Mrs. R. T. Isitt, of 872 Damasco court, and expect to make their home in Glendale.

Mr. and Mrs. F. T. Redmond are in Glendale, visiting their son, C. A. Redmond, the local district agent for the Salt Lake route. Mr. Redmond, Sr., is the Union Pacific railroad agent at North Platte, Neb.

Mr. and Mrs. H. A. Goodwin, 916 West Ninth street, have left for a visit to their son, Roy Goodwin, who is now living in Eagle, Idaho, just out of Boise. Mr. and Mrs. Goodwin will probably be away for about six months.

Mrs. J. A. Quackenbush will be hostess to the Glendale W. C. T. U. on Friday afternoon at her home, 119 East Colorado boulevard, at 2:30. Special letters of importance from headquarters will be read and war service work continued. It is desired that a large number of members and friends be present.

Mrs. A. J. Shepard, 1535 Pioneer drive, entertained the boys of Mr. Shepard's Sunday school class, the Junior Baracas, at a dinner in honor of Mr. Shepard's birthday at her home on Monday evening. Those present besides the host and hostess were: Elwood Ingledue, Homer Morgan, Verne Wilson, Francis Millard, Storrs Beckman and Wilbur Lee.

Mrs. J. G. Hunchberger and little daughter, Virginia, returned the first of the week after a few days spent at Santa Monica, in order to entertain guests from out of town. Professor and Mrs. Charles Barber of Alhambra and little daughter, Frances, spent the day with Mrs. Hunchberger on Monday. Mrs. Barber was formerly Miss Helen Best of Glendale.

Mrs. A. M. Pennel, 1232 Arden avenue, has returned from Oxnard, where she and her daughter have been visiting Mrs. Pennel's brother, Mr. C. E. Hughes, and his wife, and also Mr. and Mrs. A. C. Hughes. They experienced a very severe thunderstorm, in which the storage barn of the Oxnard sugar beet factory was struck by lightning and burned down with 210 tons of hay. Otherwise the trip was much enjoyed. Mrs. Pennel drove her car.

Mrs. O. W. Tarr, of 861 Glendale avenue, has just returned after a three months' absence from Glendale, and is back again in Dr. Teel's office. Mrs. Tarr spent two months of her time studying in the Medical College of Northwestern University, in Chicago, where she took up special work. For the past two months she has been visiting relatives and friends through the Middle West, having spent some time at her old home at Hiawatha, Kas. Glendale is the best place Mrs. Tarr has found in her travels, and she is more than glad to be back.

Mrs. George B. Carter, who is chairman of the knitting in the Red Cross, has a really remarkable report to make for the Glendale chapter. While the American Red Cross as a whole was asked to furnish one and one-half millions knitted sets, the share allotted to Glendale was fifty sets. These sets consist of one sweater, scarf, pair of wristlets and of socks each. And Glendale has exceeded the speed limit! Today the following number of knitted articles for the sets will be shipped to headquarters: Forty-eight pairs of wristlets, 141 pairs of socks, 115 scarfs and 60 sweaters. In addition to the contributions for the sets, 67 wash cloths and 408 knitted sponges are being sent.

Mrs. Jesse Joseph gave a very pretty dinner on Tuesday evening at her home, 1431 West First street, in honor of Mr. and Mrs. Arthur St. Croix, who are now at Long Beach and expect to return to their home in Toronto, Canada, on Thursday. La Detroit roses were used throughout the house and the favors were miniature figures on snow shoes, since Mr. St. Croix and Mr. Joseph belong to the same snow shoe club in Toronto. The table was decorated with the flags of the allies. Five hundred was played during the evening. The guests were: Mr. and Mrs. Arthur St. Croix, Mr. and Mrs. P. L. Blackburn of Pomona, Mr. and Mrs. F. A. Conrad of Long Beach, and Mr. and Mrs. J. L. Conrad of San Francisco. Mr. and Mrs. J. L. Conrad are house guests of Mrs. Joseph's.

Mrs. H. M. Merrill, 403 1/2 Brand boulevard, who has been entertaining a number of guests for the past month, gave a birthday dinner on Sunday in honor of Mr. E. D. Tucker of Santa Barbara. The guests were: Mr. and Mrs. F. G. Raymond, Mrs. Lillie Ingles and Mr. George Tryon of Glendale, and Mrs. Bertha Koloph, Portland, Ore., and Mr. and Mrs. S. S. Merrill of Loma Linda. Mrs. Koloph reached Glendale on Saturday and will be visiting Mrs. Merrill for some time. Mr. and Mrs. S. S. Merrill left on Monday, after having been here three weeks. On Saturday Mr. and Mrs. John Spiva and daughter, Hazel, who have been with Mrs. Merrill for the past month, returned to their home in Dennison, Tex. Mr. Spiva is trainmaster with the M., K. & T. railroad and made the trip from Texas and return in his private car.

That very substantial and classy appearing Studebaker touring car that is being driven by R. A. Pettersen, of 570 West Broadway, was purchased from Packer & Roman, the Glendale Studebaker agents.

The sister of Mrs. Sam Wilson, 1453 Patterson avenue, Miss Juanita Schmidt, who had been visiting in Glendale, met with a fatal street car accident in Los Angeles on last Wednesday at the corner of Twenty-seventh and Long Beach streets, and died Thursday night. The family has the sincerest sympathy of friends in Glendale.

Ellen Beach Yaw entertained at her beautiful home in Covina yesterday in her usual gracious manner. Mrs. J. J. Freeman, of 226 West Fifth street, Glendale, and Miss H. Morgan, 124 East Acacia street, Tropic. Lark Ellen complimented Miss Morgan on her fine piano playing, and also Mrs. Freeman's singing. After being shown around the grounds they returned home with memories of one of the most pleasant visits of their lives.

The friends of Mrs. Charles Wallace Kimberley, 345 South San Fernando road, Tropic, will be grieved to hear of the serious accident that befell her in a downtown elevator which fell to the basement with Mrs. Kimberley and about fourteen other occupants. Mrs. Kimberley suffered a severe shock, but we are pleased to say is going on as nicely as can be expected under the care of a trained nurse and other ministrations of kind friends.

A brush fire is burning in Verdugo canyon today, with a number of men from Glendale fighting it under the direction of Fire Chief Lankford. At noon the fire was seemingly well under control. Danger had been diverted from the Bullock, Canfield and Kirby homes, though the Bullock dairy and apiary were still threatened. The fire was climbing toward the Edison power lines running to Eagle Rock. The brush in that vicinity is very heavy, and even after the fire had been well confined in a canyon earlier in the morning it broke out at the head of the canyon and was going east before the wind at last reports.

BOOSTER WEEK FOR EVENING NEWS

Only the citizens of Glendale who are intelligent as to the worth of a daily paper in this community and the importance of giving it undivided financial support, either directly or indirectly, will be expected to assist in adding new names to the subscription list of the Evening News next week.

South Pasadena, a city with about the same population as Glendale, after having a daily paper for more than three years, decided last May to get along without one. Her neighbor city, Alhambra, may do the same. Other cities of like population are forced to give up their daily paper, and all on account of lack of financial support.

The Glendale Evening News, with the present management at the helm, will not go out of business, but added to the efforts of the publisher must be the efforts of the citizens who realize the need of a live community paper, if the paper is in a position to do the very most for the city.

The purpose of booster week is not for any personal reasons, but its object is to build up a stronger daily newspaper, which is one of the community's greatest assets.

CERRITOS AVENUE P-T. A.

The meeting of the Parent-Teacher Association will be held on the regular day, the first Friday of the month, Friday, October 5, at the school, at 3:15.

Prof. A. R. Oliver, the mechanical drawing teacher, will be the speaker. Miss Pearl Keller will introduce her pupils, little Merna Kahler and Dorothy Dutton, who will give the interpreted dance, "Cupid and the Butterfly," in costume. The dance will be at 3:15, so the students may enjoy it.

There will be a "parliamentary drill" and "lesson outlines" at 2:30, conducted by Mrs. Opal Greenwalt.

To these meetings every one interested in child welfare is welcome.

CARD OF THANKS

The parents, brothers and sisters of Miss Juanita Schmidt wish to extend their heartfelt thanks for the sympathy and help extended by their friends and neighbors in their bereavement, as well as for the floral offerings.

YOU ARE INVITED

The delegates to the municipal convention will make their reports to the Board of Trustees at the City Hall on Thursday evening at 8:15, and all citizens who are interested are welcome to attend.

The embargo is to be clamped down tight and Swedish pro-German "neutrality" may not thrive on an empty stomach.

"Every creature is here for a purpose," announced the teacher. "Now, what do we learn from the mosquito?"

"We learn from the mosquito," replied young Albert, "how easy it is to get stung."

STATEMENT OF OWNERSHIP, MANAGEMENT, CIRCULATION, ETC.

Required by act of Congress of August 24, 1912, of Glendale Evening News, published daily except Sunday at Glendale (Los Angeles P. O.), Cal., for October 1, 1917.

State of California, County of Los Angeles. Before me, a notary public in and for the state and county aforesaid, personally appeared A. T. Cowan, who, having been duly sworn according to law, deposes and says that he is the owner of the Glendale Evening News, and that the following is, to the best of his knowledge and belief, a true statement of the ownership, management (and if a daily paper, the circulation), etc., of the aforesaid publication for the date shown in the above caption, required by the act of August 24, 1912, embodied in Section 443, Postal Laws and Regulations, printed on the reverse of this form, to-wit:

1. That the names and addresses of the publisher, editor, managing editor and business managers are:

Publisher—A. T. Cowan, Glendale, California.

Editor—A. T. Cowan, Glendale, California.

Managing Editor—A. T. Cowan, Glendale, California.

2. That the owners are: (Give names and addresses of individual owners, or, if a corporation, give its name and the names and addresses of stockholders owning or holding 1 per cent or more of the total amount of stock.) A. T. Cowan, Glendale, Cal.

3. That the known bondholders, mortgagees and other security holders owning or holding 1 per cent or more of total amount of bonds, mortgages or other securities are: (If there are none, so state.) Mergenthaler Linotype Company, on Linotype machines only.

4. That the two paragraphs next above, giving the names of the owners, stockholders and security holders, if any, contain not only the list of stockholders and security holders as they appear upon the books of the company but also, in cases where the stockholder or security holder appears upon the books of the company as trustee or in any other fiduciary relation, the name of the person or corporation for whom such trustee is acting, is given; also that the said two paragraphs contain statements embracing the affiant's full knowledge and belief as to the circumstances and conditions under which stockholders and security holders who do not appear upon the books of the company as trustees, hold stock and securities in a capacity other than that of a bona fide owner; and this affiant has no reason to believe that any other person, association or corporation has any interest, direct or indirect, in the said stock, bonds or other securities than as so stated by him.

5. That the average number of copies of each issue of this publication sold or distributed, through the mails or otherwise, to paid subscribers during the six months preceding the date shown above is 1000.

(This information is required from daily publications only.)

A. T. COWAN.
Sworn to and subscribed before me this 2d day of October, 1917.

STELLA SMITH.
(Seal). My commission expires May 7, 1918.

RED CROSS AUXILIARY PLANS CRYSTALLIZING

Plans for the work of the Red Cross auxiliary of the Tuesday Afternoon Club are rapidly crystallizing under the leadership of Mrs. Daniel Campbell. A short business session was held yesterday morning at 10:30 at the home of Mrs. V. Price Brown, 147 South Louise street, for the purpose of perfecting arrangements for the initial meeting, October 18, 10 a. m. to 3:30 p. m., at Ard-Evin, North Glendale, the home of the chairman. Several new names were enrolled. Of especial interest was the announcement that Mrs. E. F. Tholen had consented to serve on the first aid committee, of which Mrs. R. E. Meeker is sub-chairman. Mrs. Tholen is the wife of the well known physician of that name, who has volunteered to serve at the front. Through Mrs. Tholen the members will receive first hand news from the scene of action.

The following lines, written by a member of the auxiliary (name withheld by request) aptly express the purposes of the organization:

Sure we'll "do our bit"
As we sew and knit
For our soldiers and sailors so true.
But we've got to "keep fit"
So our bodies won't shirk,
Should the call come for me or for you.

So after we've worked hard
We'll learn different games
To steady our nerves
And strengthen our frames.
We'll think so much clearer,
And be happier, too.
Our housework, our churchwork,
Or whatever we do,
Will not be a burden.
For we'll learn how to keep
Our health good, our shape good,
And just what to eat.

So if Uncle Sammy should need us
Some day
We'll be ready for action and help
peace on its way.

The section is open to all club members on the payment of 50 cents maintenance fee.

Patronizing Home Agents Promotes Local Prosperity

It is surprising the number of people who have their insurance written in Los Angeles. It could be done just as well and economically in Glendale, thus contributing to the growth of our own community instead of an outside city.

MARY'S LITTLE BOND

Mary had a little bond,
She bought it for a dollar;
And when she clips the coupons off
It makes the Kaiser holler.

—B. L. T.

If the unspeakable Turk knows
what's good for him he'll open his
mouth pretty soon and say something.

"What is the plural of man, Willie?" asked a teacher of a small pupil.
"Men," answered Willie.
"Correct," said the teacher. "And what is the plural of child?"
"Twins," was the unexpected reply.

Traveler—Here, landlord, what's the matter with your dog? I've driven him away a dozen times, but he always comes back again and sits close to my chair, watching every mouthful I take. Do turn him out and let me have my dinner in peace.

Landlord—Ah, sir, my Carlo is such a knowing brute. I expect you have got the plate he generally eats off!

Too many fellows who are "just waiting for something to turn up" expect somebody else to do the turning up for them.

Hudson Maxim announces the discovery of a new cheap and tasty food. We'll bet it's in powder form.

It Is a Good Time to Buy Olives

Mr. Hoover says don't hoard—but we are selling all sizes of ripe and green olives at old prices. This means quite a saving. Call us up if not convenient to visit the store.

ARCHIE PARKER

GOVERNMENT FOR INDIA IN SIGHT

LONDON, Sept. 10 (by mail).—William Jennings Bryan will be glad to learn that self-government appears to be in sight for India. All friends of democracy, of course, will be glad, but Bryan particularly, for he will not have forgotten the howl that arose when he told the English right here in London that self-government was due India as its right.

Announcement of the fact has been made in connection with the preparations for a visit to India by Edwin S. Montagu, new secretary for India. This is the same Montagu who, before he became secretary, denounced India's governmental system as "too wooden, too iron, too inelastic, too antediluvian" for modern needs. Explaining what it is hoped to accomplish, the new secretary made it clear he was voicing a government program, not his own ambition as a reformer.

This program, in his language, is to take "substantial steps towards increasing the association of the Indians in every branch of the administration, gradual development of self-governing institutions, progressive realization of responsible government in India, as an integral part of the British empire." Liberals in England regard the steps being taken as one of the greatest advances for democratic government the world has witnessed. India, with its large population, divided into castes, races and religions, must have some experience of self-government, they say, before the entire machinery is turned over to them.

A plan originating in India is being considered and may be acted on favorably. This provides that each province of India shall have its own legislative council and administrative organization, under a British governor, independent of the Indian central government at first. Gradually this central government would exercise the functions of a federal government.

BE WARY OF STRANGE FOODS

The Journal of the American Medical Association issues a warning against some of the plants that have been suggested as easily found and inexpensive substitutes for high priced foods. Rhubarb leaves, for example, are poisonous to at least some persons. The many species of edible fungus should be eaten only by those who are perfectly certain of their ability to distinguish them from the poisonous kinds that resemble them so closely.

And in these, as in the quite harmless spawees, there is so little nourishment that it seems scarcely worth while to take chances with them. The edible part of rhubarb (the leaf stalks), for example, is 95 per cent water, and one would have to eat a full pound of it to get 100 calories.

Green vegetables are valuable because of their bulk, and not for the negligible quantity of protein they contain. They also supply certain salts and vitamins, which are essential to health; spinach, for example, being very rich in iron.

FIFTEEN ON THE FIFTEENTH

Were I brought to believe that a birthday celebration is ever an affair of unmixt loveliness, I should perhaps be brought to say it concerning one for fifteen on the fifteenth. Fourteen on the fourteenth lacks flavor, is a little unripe, like fruit imported before the real season is at hand. Sixteen on the sixteenth is a little over-mellow, a little late; already childhood is gone, and youth, however lovely it may be in the receiving of homage and favors, should already have its hands outstretched rather to bestow them. But fifteen on the fifteenth! There is a golden mean and a time for all things, as the Scriptures and the fairy tales tell us. This was the time to dance, that King Solomon talks about. Like the "Tune Bear's" soup in the old tale, this party to celebrate fifteen on the fifteenth seems to me as nearly right as things can be conceived in a world of chance like our own.—Laura Spencer Porter, in the Atlantic.

SECRET OF SPIDER'S WALK

The way a spider moves its eight legs in walking is interestingly described by a science authority. In order to observe this movement at his leisure—for it is usually too rapid to be followed by the human eye—he tired the spiders by making them swim and then let them walk slowly over a smooth surface. In this way he discovered: First, the longest legs, those of the first and fourth pairs, move along lines of their own directions by vertical bending of the joints; the shorter legs of the second and third pairs move forward by rotation from the coxae (the joints connecting legs with the body) at right angles to their own directions. Second, first near leg moves with third off leg; (a) second near leg moves with third off leg; (b) third near leg moves with second off leg; (c) fourth near leg moves with first off leg. Third, walking consists of (a) and (c) simultaneously, followed by (b) and (d) simultaneously.

When a man, or a woman, starts out to make a fool of himself or herself, they can be depended upon to make a complete job of it, regardless of all obstacles.

CURE FOR "DENTIST FRIGHT"

That curious fear experienced by many known as "dentist fright" is altogether unnecessary, according to doctors.

"The fatigue which results from an hour or more of this dentist tension is too well known to need description," says Annie Payson Call, the well known teacher of nerve training. "Most of the nervous fatigue suffered from the dentist's work is in consequence of the unnecessary strain of expecting a hurt, and not from any actual pain inflicted. The result obtained by insisting upon making yourself a dead weight in the chair, if you succeed only partially, will prove this. It will also be a preliminary means of getting rid of the dentist fright—that peculiar dread which is so well known to most of us."

So well known, indeed, to some of us as to shut out the sunlight for weeks before the fatal date, the dread increasing steadily, till by the time the chair is reached a state of tension has been attained that precludes the possibility of letting ourselves "go dead." But, says a well known neurologist, one can drop all this by a little effort, and say to himself, "I will not cry till I am hurt." In fact, he cannot only acquire the ability to become a dead weight in the chair, but will finally give no more thought to the dentist's appointment than to a date at the golf club.

DIETARY RULES FOR THE AGED

Owing to the diversity in extent and character of the senile changes in different individuals, it is impossible to arrange for aged persons a general dietary based upon calories, proteins, etc., but it is possible to make some broad generalizations, and this is what Dr. L. L. Nascher did at a meeting of the Medical Association of the Greater City of New York. The Medical Journal gives the following synopsis of Dr Nascher's advice:

"The total amount of food must be diminished. With the falling out of teeth, the amount of meat must be diminished, and it must be thoroughly cooked and finely chopped. Vegetables containing much cellulose should be used freely. Foods should be prepared in a liquid, semi-liquid or mush form, and dry foods, especially smoked foods and nuts, should be avoided.

"Food should not be given at shorter intervals than four or five hours. Mild alcoholics with meals and at bedtime were not objectionable. Old people were apt to overeat when they got some exceptional delicacy, and care must be exercised in this respect."

PACIFIC COAST INDUSTRY

The first locomotive constructed on the Pacific coast in a quarter of a century has just had its maiden trip over the Southern Pacific lines, having hauled part of the draft contingent from Sacramento to Oakland and thence to Roseburg, Ore. In its first seventy-two hours of service the new engine covered 1040 passenger miles, which is considered an exceptionally fine showing. The locomotive was constructed in the Southern Pacific shops at Sacramento, and is of the Pacific type. Six consolidation engines for freight service and three ten-wheelers are also being built at Sacramento, the ten costing \$300,000 and constituting part of the Southern Pacific's order for sixty-five new engines. The "Liberty engine," as it has been nicknamed, has a traction pull of 45,470 pounds.

George McCormick, general superintendent of motive power, states that car building is now in progress at the company's shops in Sacramento and Los Angeles. Three flat cars have been turned out already by the Sacramento shops and eight at Los Angeles.

TWO FRENCH TOWNS WANT NAME OF LAFAYETTE

PARIS, Sept. 10 (by mail).—The name of Lafayette has been the bone of contention of two townships in the Haute-Loire department. The town of Le Puy-en-Velay, which has played a certain role in French history as the birthplace of several well known men, including a pope, has been advocating changing its name to that of Le Puy-Lafayette, in honor of the general whose old home is not far off.

But the town of Brioude has taken exception. During a recent session the municipal council decreed that, inasmuch as the chateau of Chavan-lac, Lafayette's birthplace, was in the parish of Brioude, and that several of his family resided in the town, where the general was wont to come every year for the local fete, the name of Lafayette belonged by right to Brioude and should not be usurped by Le-Puy.

Pete had secured a summer's job in the domino factory, of which he had boasted to all the other boys in his block. One Monday afternoon he was noticed in his back yard.

"Yah, Pete's lost his job," came the cry from his friends.

"Lost my job, nothin'! I'm just laid off temporary."

"If you was any good they wouldn't lay you off."

"It's this way. You see I puts the spots on the dominos, and today they're making double blanks."

MISS DOUGLAS AND HER WORKERS

Friday, September 28, eleven ambulance pillows were completed at Red Cross headquarters. Columbus avenue school children had been working enthusiastically for a week and had made a very good showing.

Thursday, August 4, Mrs. Yarik will begin the same work with such of the intermediate school children as will volunteer their services after 3 o'clock. The sewing room will be open to accommodate them Tuesdays and Fridays.

The time of the ambulance pillow workers will be given next week and from then on every two weeks. This week we give the time of the newspaper boys and girls of Saturday, September 29.

The papers from all over Glendale were collected in machines driven by Mrs. Ewins, Mrs. R. M. Brown, Mrs. H. V. Brown, Mrs. Heald, Mr. Franklin, Mr. Hartman, Mrs. Cassell and Mrs. Brummel.

In spite of a long list of good workers, we did not get through in the afternoon and were deeply grateful for the help of Joseph Lawson, Burton Kuntzner, Fred Kennedy and Lloyd Carmack in the evening, and of Donald Franklin, who came at 7, and Robert Frazee and Waldo Cowan on Monday morning. They saved a very awkward situation.

Following is the list of the names and time of all the children who helped with the papers this week. Next time we hope it will be twice as long:

Joseph Lawson, 10 hrs. 35 mins.
Horatio Butts, 6 hrs. 20 mins.
Thomas Wood, 6 hrs. 35 mins.
Robert Frazee, 6 hrs. 55 mins.
Burton Kuntzner, 8 hrs. 45 mins.
Wilfred Jackson, 4 hrs.
Walter Allen, 3 hrs.
Francis Reed, 4 hrs.
Donald Franklin, 4 hrs. 30 mins.
George Holman, 8 hrs. 5 mins.
Theo. Nickels, 2 hrs. 35 mins.
Sam Kinch, 3 hrs. 30 mins.
John Laver, 3 hrs. 30 mins.
Jack Alvord, 1 hr.
Henry Ford, 3 hrs. 35 mins.
Louis Urquidez, 3 hrs. 30 mins.
John Gortan, 4 hrs. 50 mins.
George Russ, 2 hrs. 30 mins.
Emily Bellue, 4 hrs. 35 mins.
Ralph Day, 1 hr. 30 mins.
Waldo Cowan, 1 hr.
Wilbur Reed, 1 hr.
Earl Van Dyke, 1 hr.
Donald Whitaker, 3 hrs. 30 mins.
William Kelly, 3 hrs. 10 mins.
Bill Jones, 2 hrs. 45 mins.
Harold Kurtz, 1 hr. 10 mins.
Jack Clarke, 3 hrs.
Madeline Boncamp, 3 hrs. 5 mins.
Harold Byrd, 4 hrs. 15 mins.
George Tyrol, 3 hrs. 50 mins.
John Purcell, 3 hrs.
David Kelly, 2 hrs. 50 mins.
Jack Ewins, 3 hrs. 45 mins.
Leighton Taylor, 4 hrs. 15 mins.
Walter Hertzog, 1 hr. 10 mins.
Fred Kennedy, 3 hrs. 40 mins.
Lloyd Carmack, 35 mins.

NEW IDEA OF PRIMITIVE MAN

A new idea of primitive man was put forward by an Irish professor recently. He states that the direct ancestors of primitive man never went on all-fours, had lived in trees, and, by climbing up and down the trunks, cultivated the upright habit of the human race. He points out that the fore limb was never used only as a support for the body. It seems quite credible, however, that they may have gone on three legs, using one as a hand when required, and this might account for the general use of the right hand in man.

REAL MERIT

(By Edgar A. Guest.)
'Tis not the goal that makes you great,
'Tis not the medal you may win,
'Tis not the cup of silver plate,
To tell the struggles you've been in,
That shall account your real worth.
For cheats, sometimes, the prizes claim;
The proof of merit on this earth
Is in the way you play the game.

Superior skill is not enough,
For many a brilliant mind is weak,
And, when the fight grows hard and rough,

For victory will play the sneak.
And it is better far to quit
An honest loser in the fight,
Than as the victor, come from it
By lowering your sense of right.

No matter what the game or prize,
How rich may seem the victor's share,
No happiness in conquest lies
Unless your battle has been fair.

Be brave, but guard your honor well,
Think less of medals you may claim
Than that your record fair may tell
That you have nobly played the game.

SOME PEOPLE'S NERVE

The Chancellor—The proletariat beg to know how much longer they are to be butchered!

The Kaiser—Fools! Why are they always butting into other people's business?—Life.

"I saw your ad, 'Wanted: A man to retail canaries.'"

"Yes, you are ready to go to work?"

"I don't want a job, what I want to know is how did they lose their tails?"

HAPPENINGS IN STATE

SACRAMENTO, Cal., Oct. 3.—It is costing the state of California \$5000 to \$10,000 each month to do her bit in the war, through the state council of defense. One hundred thousand dollars was appropriated by the last Legislature to carry out the purposes of the act creating the defense council and \$35,000 already has been spent. The council was organized about April 1. Here are the amounts that have been drawn on the \$100,000 fund by Governor Stephens to carry on the work of the council: April 14, \$5000; June 4, \$5000; June 13, \$5000; July 10, \$5000; July 31, \$5000; August 28, \$5000; September 13, \$5000. June and July were the heavy months, \$10,000 having been drawn in each of those months. Under the act it is not necessary for the Governor to tell what the money was spent for until the next Legislature convenes. Unless the war ends before 1919, at the present cost of operation the \$100,000 appropriation will be exhausted before the Legislature meets again. In that event the Governor probably would have to call an extra session to get an additional appropriation or to discontinue the defense council in case no session could be called.

Max A. Hornlein, local capitalist, is proving himself a died-in-the-wool American. Hornlein has sent his favorite riding horse to the Presidio for army service, that being the latest of his patriotic acts. Captain Cameron, Sacramento eye, ear, nose and throat specialist, who recently joined the army, was allowed \$175 to purchase a horse. His first thought was of Hornlein's thoroughbred. "How much more than \$175 do you want for the horse?" Dr. Cameron wired Hornlein. "You can't buy him," wired back Hornlein, "but I will give him to you, hoping that you and the horse will come out of the war unhurt and wishing you Godspeed." That afternoon Hornlein shipped the horse to the San Francisco Presidio.

War is playing havoc with the high school cadet companies in California, according to reports made to Will C. Wood, state high school commissioner. Wood says many of the cadet companies have been unable to secure qualified men to command them, as nearly all of the cadet majors have been called into federal service or have enlisted.

SAN FRANCISCO, Oct. 3.—James Rolph III, best known in the vicinity of Twenty-fifth street and San Jose avenue as captain of the neighborhood ball team, but sometimes identified as the son of the mayor of San Francisco, is happy again. When war fervor hit the country Jimmy lost his job. The ball field was transformed into a spud patch and the team into gardeners. Thirty sacks of spuds were raised and sent to the children of the San Francisco hospital. Today a letter signed by the boys at the hospital was sent to Capt. Rolph thanking him for the gift. "We would like to have a garden, too," they wrote, "but there are so many broken arms and legs among us that we wouldn't make very good farmers."

PURE OXYGEN LIKE POISON

There is a seeming incongruity in speaking of oxygen as a poison; yet scientists say that it has long been known that if a warm blooded animal be submitted to pure oxygen at a pressure of several atmospheres it will die as promptly and surely as if it were in an atmosphere of pure nitrogen. It is pointed out that even exposures to lesser pressures of oxygen over a considerable time are often attended with fatal results, the most familiar of which are severe inflammation of the lungs, thus leading indirectly to death.

Professor Karsner has attempted to define more accurately the possible pathologic effects of this gas, which is being used freely as a therapeutic agent, as a prophylactic against asphyxia in anesthesia in the industries, and in the exigencies of submarine or aerial performances. His studies show that atmospheres containing from 80 to 96 per cent of oxygen under normal barometric pressure usually produce, in animals, in the course of one or two days, congestion, and finally a pneumonia, probably of irritative origin and to be described as a "fibrinous bronchopneumonia."

UNFORTUNATELY

Dentist—Do you want your tooth pulled?
Patient—Certainly not; but it has to be pulled just the same.

When is the best time to catch soft water?
When it is raining hard.

ILL HEALTH MEANS POVERTY
OF LIFE, OF HAPPINESS,
OF SUCCESS, OF EVERYTHING

Glendale Sanitarium
Glendale, California

The dietetic regimen is one of the chief features of the Sanitarium program of health building. The diet system in use here is the result of almost half a century of thoroughgoing scientific research. It is not based on fads, guess work, or unproven theories. The right diet is not alone prescribed but is provided in the exact quantity and variety needed. The kitchen resolves itself into a food laboratory where trained dieticians prepare the food with scientific precision. These diet experts have succeeded in making a simple, wholesome bill of fare that is surprisingly varied and appetizing.

CATTLE USED AS MONEY

Anything that is used in trade as a medium of exchange or a measure of value, recognized alike by both parties to a transaction, is money. It may be wampum, skins of animals, shells, metal or paper, but if by government authority or by common consent it is recognized as a medium of exchange or a measure of value it is money. Even live animals have served the purpose and uses of money. Among some ancient tribes oxen and sheep served as a medium of exchange, ten sheep being reckoned equivalent to one ox. The Latin word for money is pecunia, and it is derived from the word pecus, cattle, showing that pecunia, money, meant property in cattle. Among some South sea islanders whales' teeth serve as money, and among the early English colonists in America tobacco served the same purpose and was a legal tender in payment of debts at a fixed rate a pound. Experience has proved that gold and silver possess the necessary attributes of money to an exceptional degree and they are now the basis of the monetary system of all civilized governments. The constitution of the United States gives Congress the exclusive power to coin money and the power is jealously guarded and carefully exercised.

IS DEADLY FOE OF HUMANITY

I am more powerful than the combined armies of the world.
I have destroyed more men than all the wars of the world.

I am more deadly than bullets and I have wrecked more homes than the mightiest of siege guns.

I steal, in the United States alone, over \$300,000,000 a year.

I spare no one and I find my victims among rich and poor alike; the young and old; the strong and weak; widows and orphans know me.

I loom up to such proportions that I cast my shadow over every field of labor from the turning of the grindstone to the moving of every railroad train.

I massacre thousands upon thousands of wage earners in a year.

I lurk in unseen places and do most of my work silently. You are warned against me, but you heed not.

I am relentless, I am everywhere; in the home, on the street, in the factory, at railroad crossings and on the sea.

I bring sickness, degradation and death, and yet few seek to avoid me.

I destroy, crush or maim; I give nothing, but take all.

I am your worst enemy.

I am Carelessness.—Baltimore Sun.

COMING AND GOING

Mildred—They say he comes from a good family.

Mabel—Then why doesn't Belle marry him?

Mildred—His destination is unknown.—Judge.

FUNNY COURTSHIP

"Daughter, I have found a husband for you. He is a poet and he disposes of all his poetry."

"Really? Then I do hope I won't be averse to him."—Pittsburgh News.

ALAS!

Experience is a teacher stern.
Her lessons we cannot refuse;
The trouble is, she makes us learn
So many things we cannot use.

NEWS IN BRIEF

I only want to report that our cat got drowned in the cistern this morning; the baby is cutting a new tooth; the cook left without warning; we are out of sugar and starch; the stovepipe fell down; the milkman left only a pint instead of a quart today; the bread won't rise; my oldest child is coming down with the measles; the plumbing in the cellar leaks; we have only enough coal to last through tomorrow; the paint gave out when I got half over the dining room floor; the mainspring of the clock is broken; my three sisters-in-law are coming to visit tomorrow; the man has not called for the garbage for two weeks; our dog has mange; the looking glass fell off the wall a while ago and broke to pieces, and I think that my husband is taking considerable notice of a widow lady that lives next door. That's all today, but if anything happens later I'll call you up and tell you about it.—Youth's Companion.
